I got 47 of them. Where, where? Closing.Copyright 1999-2022 KillerMovies. Does anyone know the answers to all of them? I've figured out 55, wanna see how well others can do. You will notice that some of the alphabetic headings are missing. T. Is there anyone who knows the "code" to unlock the answers? We have been working on this for 3 months and the best we could do is 52. If you have an email without send/receive limitations I can send it to you.nicki8959My email is: If you could send it to me than that would be great!methinkalexahotha ha found me yetmethinkalexahotok my turn to find youmethinkalexahotok late trv found me firstjakeusmc12I have that Excel worksheet that you are talking about. SkinnerI have seen this file on a few different occasions...there is also a way to break the code and paste in the answers. Is there anyway else I can send it?hawaii also got this quiz via email. GEEZ!!! Anyway I tried to send it but it won't recognize the file type. I assume a moderator will need to look over the file, first, so I'm putting this message here, to see if I get a response.MythUmm... bigdan. 561Is anyone online today?????????CinemaddictionSame as Guess the Moogle. you guys don't need to use the forum to play this though.TheFunkyApeI have made some more of these types of quizzes. game. I'm interested in posting a copy of the file for others to download if they want to take a stab at it; the file supposedly has been scrupulously scanned for viruses, and found to be virus-free. Unhide those columns first. undertablefanI have it, but it's too big to post, even when it's compressed. Where can we find the answers? You still won't be able to read the answers at that point but you can copy the columns and put them on a new spreadsheet (change the background color or font color if needed) and there you have them! Have funediththat sounds interesting!!!KatPati got as excited as you can in an office, when I found that list of answers; I was feeling rather smug that I would be the heroine that saved people from this eternal misery... whether it is good or bad, I appreciate all input I get. The worksheet I got is "read only" so I can't tamper with anything.buddaman769Ok, I got (with lots of help from friends at work) 52 of the 72. Why not try this Christmas movie quiz.There are 20 movies to recognise from a picture. That's a well hot pic of Angelina Jolie! trw1978What are the answers to the 60 picture quiz? Under each pic is a space to guess the name of the film; when you press enter, you get either a 'true' or 'false' statement. Not too bad I thought until I saw that you got 55. In the file were 72 photos, each a scene from a different film, where the faces and hands of the people in the scene had been edited out, leaving only their clothes, any hats, gloves or glasses they may have been wearing, and the background. There don't seem to be any coloums missing so that cheat has been fixed - darn; and the quiz we have doesn't appear on the the filmwise website. If anyone can send me the 72 question Excel file, send me a PM please? da manjust to be sure we're talking about the same quiz, this is the one where you have to misspell "Jerry Maguire" as "Jerry Macquire", and where you have to drop the apostrophe from "A Knight's Tale", before you get the 'True' to show up?A.D.
